Quest

Out of the Castle, across the moat
Leaving the known for lands remote
Surged the Lords and Knights of old
Answering the challenge to the bold
Braving the mountains, braving the seas
Sustained by their faith and loyalties.
Fighting the Saracen and his Eastern ways,
Lest he through Europe a trail should blaze.
Crusading for Western freedom and life;
These justified the endless strife.
Like these Lords and Knights of old,
We too will strive to uphold
The things they fought for and gave to us,
Adding peace to them, by our power to discuss.

Dedication

Miss Simms - We, the graduating class of 1956, proudly dedicate our yearbook to you.

But what can we say now? How can we tell you how much you mean to all of us? There is so much that we will always remember about you: good times, when you sat in the Smoker with us laughing and talking; other times, not so good, when you scolded us or when we made you unhappy because of the things we did and felt much worse about it ourselves; times when we came to you individually, when something bothered us, and you were always ready to lend an ear. Because of all these things and much more, we can never say how much everything you've done for us and with us means to us.

Perhaps the biggest thing we'll remember, is the way you have been for us, behind us, and with us in everything. Really, you have been one of us. You see, we've worried about you when we thought you were working too hard; we've been unhappy when we knew you were unhappy; and we've been happy with you, and always, we have loved, honored, and respected you.

When we leave here we will go many ways, but wherever we go, whenever we look back, Miss Simms, you will always be one of our most wonderful memories. All of us say thank you, thank you for being just plain you.

To the graduates of 1956 we offer these words from "The Prophet" by Gibran:

"No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge.

The teacher who walks in the shadow of the temple among his followers, gives not of his wisdom, but rather leads you to the threshold of your own mind.

The astronomer may speak to you of his understanding of space, but he cannot give you his understanding.

The musician may sing to you of the rhythm which is in all space, but he cannot give you the ear which arrests the rhythm nor the voice that echoes it.

And he who is versed in the science of numbers can tell of the regions of weight and measure, but he cannot conduct you thither.

For the vision of one man lends not its wings to another man.

And even as each one of you stands alone in God's knowledge, so must each one of you be alone in his understanding of the earth."
